CONTENTS OF EXTENSION FIELD TRIP

- Extension field trip is a part of practical course of Agricultural Extension Education and in partial fulfillment for the requirements of the degree of Bachelor of Science in Agricultural Engineering.
- Students get an opportunity to acquaint with organizational set-up, current programmes and working procedures of different nation building departments with emphasis on agricultural and rural development organizations at *upazila* (sub-district) level.
- Students gain considerable knowledge and experiences on the technology transfer among the farming communities. They identify the problems of farming community through visits, survey, group discussions and other participatory method(s).
- Students also get opportunities to develop communication and leadership skills through group activities, presentations and report writing.
